

# *VoiP to Cellular Gateway VoiP Master*

## **A REVOLUTIONARY PRODUCT!!!**

## **A REAL MONEY SAVER!!!**

Connects you from anywhere to everywhere, at anytime, and at the lowest possible cost!!!

Plug-and-Play, easy and simple to use.

Connects your Mobile via VOIP in SIP protocol

### **Main Benefits:**

- Calls from your cellular over VOIP
- Call from your cellular phone to the gateway unit and it will provide you with a dial tone which will connect you via VOIP to another party FREE OF CHARGE.  
Note: If you call VOIP to PSTN you will need a SIP provider and the cost is a few Cents per minute.
- Calls from VOIP to cellular- "Follow-Me" feature. For incoming call from VOIP it may follow you to your cellular phone so you receive any calls anytime, anywhere.
- For outgoing calls from PBX, or landline phone at your office or at home all calls will be routed via an intelligent LCR that directs cellular calls to the cellular network, and the VOIP calls to the VOIP network based on the prefix you call.

Note:

GSM: the Winner unit uses 1-2 SIMs 900/1800 or 850/1900 Mhz.

CDMA: 2000 1X 800/1900 Mhz.
